

Why does Bosnia & Herzegovina have a high energy expenditure?

Bosnia and Herzegovina's energy sector has endured significant loss due to the low energy efficiency standards in the past. This was the case with both residential and commercial buildings, which resulted in the country's high energy expenditure.

What is a mobile inverter?

The primary application is to convert current but Mobile Inverters have a secondary application. This is the mobility of the inverters to work in remote locations. One inverter can be used with different types of batteries. Inverter can be removed from the battery and installed into different circuits.

Why did Albat move to Bosnia and Herzegovina?

Because of the war, in 1992, effects and impossibility to work on the main Market, company ALBAT and all its activities were moved to Slovakia, City of Kosice. But in 2005, company ALBAT came back to Bosnia and Herzegovina, City of Sarajevo. [Read more!](#)
