

Do you need a travel adapter for Cook Islands electrical outlets?

Well, the Cook Islands have Type I (i) power plugs with 240V AC 50Hz, so if your appliances don't fit the electrical outlets and/or require a different voltage or frequency, then you're going to need a travel adapter and maybe even a converter. Makes sense? If not, this in-depth guide on the Cook Islands electrical outlet will make it so.

Can a universal power adapter fit a Cook Islands outlet?

Universal power adapters usually come with multiple plug types and can be adjusted to fit Cook Islands outlets and many others. If your devices are not compatible with the voltage in your destination country, a voltage converter or transformer will also be necessary to convert the voltage to the appropriate range for your devices.

What type of plugs and sockets are in the Cook Islands?

In the Cook Islands, the power plugs and sockets are Type I. It has three flat pins: two angled ones and one straight one. Note that some appliances don't have that straight bottom pin, but they are still compatible with the Cook Islands electrical outlets.

What is the standard voltage in Cook Islands?

The standard voltage in Cook Islands is 240 V, and the standard frequency is 50 Hz. If you're coming from a country that uses a different voltage, you may need a voltage converter or transformer in addition to a plug adapter. What is my country's voltage and frequency? - Select it from our list.
