

How many 5G base stations does Huawei have?

The contracts have been split into two projects, with the first covering 63,800 base stations using 2.6GHz to 4.9GHz spectrum, while the second covers 23,141 in the 700MHz band. Huawei is estimated to have secured 45,426 5G base stations worth an estimated 4.1 billion yuan (US\$574 million).

How many 5G base stations are there in China?

Xie Cun, director of the information and communication development department at the ministry, said that Chinese operators have already deployed more than 1.15 million 5G base stations, accounting for more than 70% of the global total, and 5G network coverage has been achieved in urban areas of all prefecture-level cities.

How much will Huawei spend on 5G?

The operator, which ended Q1 with 983 million mobile subscribers, expects to spend 83.1 billion yuan (\$11.6 billion) on 5G networks this year. Huawei previously won 57 percent of China Mobile's previous 5G tender process back in 2020.

Who won a 5G contract in China?

Huawei wasn't the only Chinese vendor to win a sizeable chunk of the tender, with ZTE the second-largest winner with around 26 percent of the contract, equivalent to 23,227 5G base stations. Smaller contracts were also awarded to Datang Mobile Communications Equipment, Ericsson, and Nokia Shanghai Bell.

How much will China Mobile spend on 5G?

China Mobile plans to operate more than 1.6 million 5G base stations this year, increase its number of cloud servers by more than 240,000 units, and add 40,000 external data center racks. The operator, which ended Q1 with 983 million mobile subscribers, expects to spend 83.1 billion yuan (\$11.6 billion) on 5G networks this year.

Which companies have been awarded a 5G contract?

Smaller contracts were also awarded to Datang Mobile Communications Equipment, Ericsson, and Nokia Shanghai Bell. China Mobile plans to operate more than 1.6 million 5G base stations this year, increase its number of cloud servers by more than 240,000 units, and add 40,000 external data center racks.

In total, Huawei has won 52 percent of China Mobile's 5G base station work, as part of the largest portion of the contracts put out for tender ...
