

Iceland Base Station Communication System

Does Iceland radio offer satellite communication?

Iceland Radio offers satellite communication service to aircrafts through IRIDIUM and IMMARSAT. When HF conditions deteriorate, a satellite communication can be applied. If the aircraft is equipped with a satellite phone on board, pilots can call Iceland Radio centre when necessary.

Which US military station was based in Iceland?

Naval Air Station Keflavik was the host command for all U.S. defense activities in Iceland.

What frequencies does Iceland radio use?

From Iceland Radio, aeronautical communication service is provided every day for 24 hours through HF and VHF GP frequencies. VHF service is continuous over the North Atlantic Ocean with COM equipment located in Iceland, Greenland, and the Faroe Islands. Operating frequencies are VHF 126.550, VHF 127.850, and VHF 129.625.

Can Iceland radio call aircraft?

Moreover, Iceland Radio can call aircrafts equipped with a satellite phone. Aircrafts can request a phone patch to their company dispatch unit or to Medlink when necessary. Through HF and landline interconnection, Iceland radio can call and connect an aircraft to their company dispatch unit or to Medlink.

Does US Air Base in Iceland mean US troops will follow?

"Restoration of US air base in Iceland does not mean troops will follow, Navy says", Navy Times. Retrieved 7 June 2025. ^"U.S. Government Debated Secret Nuclear Deployments in Iceland", National Security Archive. George Washington University. 15 August 2016. Archived from the original on 5 December 2016. Retrieved 10 December 2016.

Are Iceland's elves enlisted in anti-NATO effort?

"Iceland's Elves Are Enlisted in Anti-Nato Effort", The New York Times. ISSN 0362-4331. Retrieved 18 February 2020. ^"Naval Air Station Keflavik Disestablishes After 45 Years", Archived from the original on 6 September 2009. Retrieved 12 August 2010. ^"Air Policing", NATO Air Command Operations. Archived from the original on 24 January 2010.
