

Is there any outdoor power supply manufacturer in Kosovo

Who is Kosovo Energy Distribution & Supply Company (KEDS)?

Kosovo Energy Distribution and Supply Company (KEDS) is a company operating throughout Kosovo having the exclusivity for electricity supply and distribution in the territory of Kosovo. Since May 2013, Kosovo Energy Distribution and Supply split from Kosovo Energy Cooperation and started its operational activities as a joint stock company.

Which companies are affecting the energy sector in Kosovo?

Besides government institutions, there are also companies with great impact in energy sector such as Kosovo Energy Corporation (KEK), Transmission, System and Market Operator (KOSTT) and Kosovo Electricity Distribution and Supply (KEDS). A lot of legislative documents that aim the adjustment of electricity sector have been approved.

How many hydroelectric power plants are there in Kosovo?

Hydroelectric power generation is mainly provided by Ujmani power station with a capacity of 70 MW. In the past, Kosovo has had four functional hydroelectric power plants. After the 1999 war they stopped working, but they have been rehabilitated in the recent years. Lumbardhi hydroelectric power plant was rehabilitated in 2005.

Are power plants polluting the environment in Kosovo?

Since most of electric power is produced by power plants in Kosovo they are considered the main environment pollutant. Actual emission of gases, dust and waste-water discharged from the existing power plants, are above the levels allowed by the EU directives.

Why is electricity expensive in Kosovo?

Usually, in Kosovo the imported energy is much more expensive than export. This is because Kosovo imports energy one day before needed, in the other hand energy is exported during the night when the demands are under generating level. Imports and exports have a negative impact for electrical energy price.

How many units are in Kosova B power plant?

Kosova B power plant is composed of two units. The first unit was built in 1983 with a capacity of 340 MW, while the second unit was built in 1984 with the same power of generation. The conditions in Kosova B power plant have improved after recent investments. The power plants and coal mines are located in Kastriot.
