

What battery does my DIY power station use?

My DIY power station has 1,464 watt hours of energy using a 122 amp hour flooded lead-acid batteryfrom Wal-Mart. This battery is no longer available,however you will find alternative 100 amp hour AGM and LiFePO4 batteries linked below.

### What is a battery box?

A battery box is a portable power supply. It can be used to power small electronics and projects during camping, general usage, or emergency situations. Most battery boxes are sold commercially and are not customizable. This tutorial shows you how to make your own battery box that allows you to choose how many batteries you want to use.

### How to choose a portable power station?

It does not require any fuel or oil to operate and does not produce any harmful emissions. This makes it an ideal choice for outdoor activities like camping and hiking where you want quiet, clean power. The most important decision when choosing a portable power station is how much power (wattage) is available.

#### Do you need a custom battery box?

A simple and affordable solution is a DIY custom battery box. It gives protection from harsh weather outside, keeps your batteries stored together, and makes it easy to locate and charge quickly. It can be done in simple steps, with pictures and descriptions detailing each part.

#### What supplies do I need for a DIY solar power station?

Fuse Block USB Socket Panel (I Purchased 2) Main On/Off Switch Battery Capacity Monitor SAE Solar Socket 10 AWG Wire Heavy Duty Velcro The next supplies I already had. Here are links to similar products: 16 AWG Primary Wire Ring Connectors Now that you've gathered everything you need for your DIY solar power station, it's time to get building!

### Should I use a flooded battery for my power station?

Keep in mind,if you choose to build your power station with a flooded lead-acid battery like mine,you should never use more than 50% of its capacity to avoid damaging your battery. Consensus: Go with an AGM or LiFePO4 battery to get much higher performance. See the Important Note section of this page for more information on D.O.D.
