

New Zealand base station power cabinet outdoor site

What are the best portable power stations in New Zealand?

Grid Escape's ATB & Pecron Portable Power Stations range are designed to withstand New Zealand's harsh elements. These compact yet robust units are perfect for any scenario, whether exploring the great outdoors, powering through work at a remote construction site, or staying prepared during an unexpected power outage.

What is a base power unit?

These units are used as an alternative to maintaining traditional overhead lines where the distance and terrain makes it difficult. We'll be in touch if we think a Base Power solution is right for you, or you can contact us.

What is an Eaton exocab outdoor cabinet?

The Eaton ExoCab outdoor cabinet belongs to a range of versatile, cost effective outdoor cabinets for a wide range of electronics applications. The ExoCab can be configured for DC power, UPS, battery, or any other outdoor installation requiring robust protection for electronics equipment. Front and rear doors are provided for ease of access.

Does a base power energy storage unit need additional protection?

The Base Power Energy Storage Unit and generator can handle almost any type of weather and do not need additional protection. They are typically installed on concrete pads that help keep the weeds away. The solar generation will need to be installed in a sunny spot which is free from shading. How can I find out more?

What are base power TM units?

Alternative ways to stay connected. We have developed Base Power TM units to provide standalone power generation. The units use solar panels and battery storage, along with backup diesel generation to supply you with safe, reliable and durable power independent of our electricity network.
